

Technology, Media and Telecommunications

Attorneys

Sherwin M. Yoder, CIPP/US

Power Up

In the fast-paced world of technology, media and telecommunications (TMT), Carmody helps clients to accelerate their goals. We work with some of the nation's most recognized TMT brands and help both emerging and established companies thrive in an increasingly digital world.

We assist these clients with their business life cycle needs including:

- initial research and development
- business capitalization
- industrial expansion
- rights prosecution and litigation
- antitrust and marketing compliance
- private and public offerings
- financings
- mergers and acquisitions

Drawing upon our talented pool of attorneys with industry-specific experience, we bring to the table the right resources at the right time to achieve your goals. This way, you get “big firm” expertise with the personalized service of a smaller firm – a combination that keeps our TMT clients powering forward.
